

Reseller Spring 2008 Starter Kit Solution For the Service Provider Market

Dialexia – Dial-Gate Softswitch

Dialexia offers a complete end-to-end solution allowing resellers who wish to enter the VoIP Service Provider Market. The Solution includes a comprehensive list of items at an attractive price. Dialexia's Softswitch and billing server application for VoIP and PSTN networks with a web based interface that provides real-time communication over IP Networks.

For Service Providers, the advanced communication features of this VoIP softswitch will enable them to offer subscribers a Call-Back ANI Service Plan. Dial-Gate also offers an optional Web Services API to allow integration of the softswitch application server with the existing client's application web portals.
